Available May 2009

*"Give your cat a chance to be what he was ordained to be
by showing a new understanding of his uniqueness you have
nothing to lose and much to gain!"*

—Vivian Buchan

For over 30 years, Vivian Buchan has been one of the worlds authorities on cat astrology. Her ground-breaking 1979 volume entitled "Cat Sun Signs" is now once again available in this new edition. This volume shows cat lovers how astrological signs affect their pets, explaining how different vibrations of the planets influence each cats personality, making some cats contented homebodies and others wandering gypsies.

A delightful book with charming illustrations!
